

Making DMPs actionable

Masha Rudneva, Marta Teperek

Goal

- Integrating Data Management Plans on DMPonline platform with institutional systems.
- More efficient (re)use of the collected data

Deliveries

- Integration of DMPonline with TU Delft's storage request system (Topdesk)
- Integration of DMPonline with TU Delft registry of personal research data (Sharepoint)
- (Further) integration of [SURFconext](#) with DMPonline (attributes)
- Institutional dashboard with DMP statistics

Approach

- Tight collaboration between the involved parties and the TU Delft

 DMP ONLINE

 TU Delft

 SURF CONEXT

 TOPdesk

- Developer(s) for an integration work
- Community involvement: mailing list*, blog posts and satellite events/webinars
